Driven to Excellence!

INTRODUCTION

- ▶ JC Consulting was established in 2015 after selling off old business CMI services to provide a complete and effective mechanical Field and Installation service to Mining and Industrial Industries.
- ▶ JC Consulting will endeavour individually and with accoiates, to render professional service and customer satisfaction through a “service to excellence” approach and comply with all safety factors in the field.
- ▶ JC Consulting uses the latest technologies for accurate installation and commissioning of machinery.
- ▶ JC Consulting provides an effective engineering supply chain with all parts supplied and requested in the field.

As specialists in our field we serviced clients all over South Africa and Africa in the industrial and mining environment. We are highly experienced in mechanical erection ,mechanical field service, gear and drive alignments. We erect, install and maintain Grinding mills and Gyratory, Cone, Jaw crushers, Apron feeders, Flotation plants, Pump Stations, Conveyors etc at various sites National and International that is listed in our projects below.

JC Consulting and their employees always focus on safety first.

Driven to Excellence!

SERVICES

INSTALLATION, MAINTENANCE, REPAIR AND MANAGEMENT

We specialize in the installation, maintenance, repair and management of industrial and Mining mechanical infrastructure concerning the following:

- Gearbox, Mechanical maintenance and repair
- Conveyer drives
- Gyrotory, Cone & Jaw Crushers
- Apron feeders
- Ball Mills, SAG Mills, FAG Mills, ROD Mills and Pebble Mills
- Mill and Crush refurbishment
- Machine Installations
- Drive Alignments
- Gear changes & alignments
- Dynamic balancing
- Condition Monitoring
- MPI Inspections and UTI
- Laser Alignment
- Large Spherical Roller Bearing fitments, Hydrostatic Bearings etc.
- Analyses
- Field Service and Site Management
- Mining Supplies
- Call out service
- Turnkey Projects
- Onsite machining and milling

Mission Statement

- ◊ To perform all projects to the highest level of quality field services at fair and market competitive prices with safety as our first value.
 - ◊ To ensure the longevity of our company through repeat and referral business achieved by industrial satisfaction in all areas including timeliness, attention to detail and service-minded attitudes.
 - ◊ To maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our Clients, subcontractors and professional associates.
- We are Driven to Excellence!**

Our Values

- ◊ JC Consulting & Specialised Services are committed to the highest standards of ethics and integrity.
- ◊ We are responsible to our customers, to JC Consulting's employees and their families, to the environment we inhabit, and to the companies we serve worldwide.
- ◊ In discharging our responsibilities, we do not take professional or ethical shortcuts.
- ◊ Our interactions with all segments of society must reflect the high standards we profess.

Our Goals

- ◊ International expansion in the industrial sector and to develop a strong base of key customers.
- ◊ Increase the assets and investments of the company to support the development of our services.
- ◊ To build a good reputation in the field and become a key player in the industry.

MANAGING DIRECTOR

► MD personal background

I started off at Gencor St Helena Gold Mine in the Goldfields as an Apprentice Fitter & Turner in 1984. Qualified and spent most of my working career at Gencor and AngloGold gold plants as a mill and crusher fitter. In 1997 I left the mines and worked construction in West Africa as a mechanical fitter erecting Mill and crusher plants. I worked for Cutlaw Construction, Svedala SA PTY Ltd, Metso Minerals, Outokumpu later Outotec as Service technician and later Service engineer. In 2002 I established CMI Services and only done jobs for myself during holidays and annual leave. In 2009 I landed my first contract with AGA and CMI took off.

I sold CMI in 2015 and established JC Consulting and will continue to provide the best service in my field to the mining and industrial industries in Africa and world wide.

JC Consulting have a good client base in West Africa and Southern Africa and is also providing Field Services for Harcliff mining Services since 2015 on all their products and on other OEM machinery.

Jan Cronje

JC CONSULTING

**B-BBEE Status:
We are a Level 3 B-BBEE
contributor status**

- Xstrata Brits – 30/70 Gyratory Crusher
- Minopex Marikina – 32/65 Gyratory Crusher and Grinding Mills
- Minopex Kroondal 1&2 – Grinding Mills.
- Minopex Eland – Grinding Mills
- Minopex Bosveld
- ARM Nkomazi – Grinding Mills and Gyratory crusher
- Anglo plats Waterfall – Grinding Mills
- C&E Engineering – All types of Crushers
- Lonmin Limpopo – Grinding Mills
- Assmang – Beeshoek 60/89, 54/74, Sandvik Secondary
- Assmang – Wessels mine Sandvik and Osborn Jaw Crusher
- Sylvania – Lannex Harcliff mill installation and mill maintenance
- Sylvania – Mooi Nooi Mill Installation and mill Maintenance
- Sylvania – Mill Sell Mill maintenance and Mill Refurbishment
- Sylvania – Lesedi Mill Installation and Mill Maintenance
- Gold One – Harcliff mill refurbishment and mill installation, mill maintenance
